

Nikolay Lunchenkov

Munich, Germany, +4917655745111, nikolay.lunchenkov@gmail.com

PROFILE

I am a patient-focused physician specializing in infectious diseases and a global health researcher with a focus on sexual health. I worked as public health and community manager for several years in Global leading organizations. Effective at developing classes and materials to educate community members on infectious disease and drug use management as well as health improvement strategies. Versed in available resources with skill in supporting individuals navigating healthcare programs. I am skilled in technical writing, surveillance and field research and also proficient in resource utilization, policy and program reviews. I'm finishing my Master of Science program in August and looking for career opportunities.

EMPLOYMENT HISTORY

Apr 2021 — Present

LGBT Health Coordinator, Eurasian Coalition on Health, Rights, Gender and Sexual Diversity

Tallinn, Estonia

- Developed and initiated projects supported by Global Health leading organizations (Global Fund, WHO, ViiV Healthcare), managed costs and monitored performance.
- Conceptualized, developed and conducted studies to better understand the health-related needs of key populations in Eastern Europe and Central Asia (EECA). During my time in ECOM I conducted three studies in EECA.
- Prepared technical resources, documents and publications to provide technical support for national organizations in EECA
- Identified community organizations and leaders to establish and nurture relationships to help build awareness and win reforms for the public.
- Spoke at public events for organizational goals and interests.

Aug 2019 — Mar 2021

Lead Consultant & Coordinator, Terrence Higgins Trust

London, The UK

- Provided consultancy for this project whose aim was to build competence and confidence of key stakeholders (organizations and individual practitioners) working within HIV Prevention and Treatment in Russia through bespoke training programme.
- Supported Russian stakeholders in establishing needs, tools and recommendations around substance use among men who have sex with men;
- Educated specialists (medical and social) working in field of HIV / STIs and LGBTQ+ health, challenged stigma and discrimination, and developed recommendations for substance-related harm reduction and reduction of risk of transmitting infections.
- Conceptualized and conducted a qualitative study about needs and perception of quality and accessibility of health services among chemsex users in Russia

Sep 2018 — Sep 2019

Infectious Diseases Doctor, Moscow Regional Centre For HIV Care And Prevention

Moscow, Russia

- Implemented antiretroviral therapeutic regimens involving medications and other interventions to mitigate symptoms and prevent reoccurrence.
- Applied knowledge of the clinical, socio-behavioral, and fundamental biomedical sciences relevant to HIV Medicine
- Met with patients to discuss medical histories and current complaints.
- Interviewed patients concerning physical complaints, discussed symptoms, asked questions and suggested treatment options.
- Participated as a co-investigator of IV Phase clinical trials in our clinic.

Sep 2017 — Oct 2019

Project Manager, Community Engagement , AIDS.CENTER Foundation

Moscow, Russia

- Led the project funded by UNAIDS to establish a digital crowdfunding platform that aimed to support programs and organizations across Russia that were working with key populations
 - Built successful project plans covering objectives, resources and staffing to meet schedules.
 - Monitored contracts and service level agreements to identify potential risks and implement mitigation actions to protect development process from unforeseen delays and costs.
 - Tracked project performance to analyze successful completion of short- and long-term goals.
-

CONSULTANCY EXPERIENCE

Apr 2022 — May 2022

Independent Consultant

Global Fund

- Conducted desk research on methods for data collection on the community level
- Developed a tool for community-based organizations on data collection for community-led monitoring of HIV services

Jul 2021 — Dec 2021

Independent Consultant

Arab Foundation For
Freedoms and Equality

- Developed and conducted a study "Chemsex in MENA"
- Elaborated the concept note, conducted a desk review, wrote a protocol, developed the research methodology, identified the data collection questions and methods
- Communicated with partners, organizations and doctors, trained data collectors online, followed up on the data collection and transcription

Jun 2020 — Aug 2021

Independent Consultant

ECOM

- Developed a serial webinars and short publications on PrEP for community organizations working with MSM and trans people in EECa countries
- Based on the identified needs developed five webinars 45-60 min long each and conducted these webinars in cooperation with ECOM staff members
- Provided technical assistance to NGOs starting or planning PrEP projects in Azerbaijan, Belarus, Kazakhstan and Kyrgyzstan

Aug 2019 — Dec 2019

Independent Consultant

UNFPA

- Worked in collaboration with UNFPA and CDC and national consultants to design the first phase of the Comprehensive program package for men at most risk of HIV. This package designed for counselors working in centers for men at most risk of HIV to provide counseling to this at-risk population.
- Conducted on-site data collection among men who have sex with men in Iran
- Authored and presented final after-action reports to identify strengths and challenges as well as recommended corrective changes for future investigations.
